08

The work doesn't stop: Eje No Penal begins the physical refurbishment of the ALEGRA and mega ALEGRA centers of Comandante Espinar, Los Olivos and Chanchamayo.

So far in 2023, the Eje No Penal Program has intervened in the refurbishment of 12 ALEGRA and Mega ALEGRA centers nationwide.

To guarantee better care and real access to justice, the Improvement Program of the Justice Administration Services - Eje No Penal has begun work on refurbishing the physical infrastructure at three ALEGRA and Mega ALEGRA centers of the Directorate of Public Defense and Access to Justice of the Ministry of Justice and Human Rights. These are the ALEGRA center of Comandante

Espinar, the Mega ALEGRA center of Los Olivos in the city of Lima and the Mega ALEGRA center of Chanchamayo in the Junín region. They join the 12 centers that were conditioned and inaugurated this year, among these are the Mega ALEGRA centers with an intercultural approach in Ucayali, Cusco and Abancay, which serve the vulnerable native population in these regions of the country.

The estimated investment for the refurbishment of both offices exceeds one million soles and is part of the project "Improvement of Free Legal Advice Services (ALEGRA).

Development of the Work

At the Mega ALEGRA center of Los Olivos located on Av. Carlos Izaguirre No. 1447 in the district of Los Olivos in Lima Norte, and at the ALEGRA center of Comandante Espinar located in the district of Miraflores, work is being carried out to improve

and condition physical refurbishment to create more welcoming, efficient and inclusive environments for the vulnerable user population that seeks the services of free legal advice offered by the Peruvian State through the public defense.

The works include the refurbishment of the existing

infrastructure for the operation of the offices. It will also have completely new, modern and functional furniture, and the equipment with the CCTV system, communications cabinet, structured cabling, totem, among others, all this to optimize the work carried out by the public defenders and provide quality attention to citizens.

The period of execution of the refurbishment works will be 45 days for the center of Los Olivos and 60 days for the center of Comandante Espinar. During this time, the companies GEEEC INGENIEROS SA and RCK CONTRATISTAS GENERALES SAC will be responsible for carrying out the work in the reception areas, service modules, public defenders' offices, playground, waiting room, conciliation room, modules for forensic experts, forensic doctors, social workers, data center, bathrooms for the disabled, among other key spaces.

The estimated investment for the refurbishment of both centers exceeds one

million soles and is part of the project "Improvement of Free Legal Advice Services (ALEGRA). This project is executed with the technical and financial support of the World Bank, which seeks to improve the infrastructure and quality of the free legal advice services provided by the ALEGRA centers at the national level.

In the same vein, at the Mega ALEGRA center of Chanchamayo, the Eje No Penal Program has embarked on work aimed especially at benefiting the most vulnerable and low-income population, guaranteeing more effective access to the legal services provided by the Alegra Centers of

the Public Defense Directorate of the Ministry of Justice.

Next Steps

By 2024, the Eje No Penal Program is scheduled to carry out the physical refurbishment of the ALEGRA and Mega ALEGRA centers of Kaquiabamba and Andarapa in Andahuaylas, Pasco, Majes and Camaná in Arequipa, Maynas in Iquitos, Tacna and Huánuco, with which it reaffirms its commitment to continue supporting the ALEGRA centers of the Public Defense for the benefit of the population that is not in a position to pay for a private lawyer. guaranteeing their right to justice.

Improvements to the Constitutional Court courtroom

Eje No Penal began the refurbishment of the Courtroom at the San Isidro Center of the Constitutional Court

The Courtroom of the Constitutional Court is the epicenter where crucial issues for the legal system and citizens' rights are debated, deliberated and decided. It is designed to ensure impartiality and transparency; this room plays a crucial role in decision-making on constitutional matters of great relevance. As well as being the space where the flow of incoming cases, the incoming cases and those of grievance are analyzed.

Once admitted, the hearing of the case, which is a mandatory act by the new cons-

titutional procedural code, is scheduled to hear the parties. This event, which can take place virtually or in person, constitutes an important space for access to constitutional justice.

Investment and Project Scope

The Improvement Program of the Justice Administration Services - Eje No Penal, with the support of the World Bank, has signed a contract for the refurbishment of the Courtroom at the center of the Constitutional Court, located at Av. Arequipa No.

“ The Hearing Room of the Constitutional Court is the epicenter where crucial issues for the legal system and citizens' rights are debated, deliberated and decided.

in person. This will facilitate oral reports on factual and legal grounds, benefiting citizens who use the Court by providing adequate, modern and secure space. In addition, these improvements will contribute to strengthening accessibility and efficiency in the administration of constitutional justice, ensuring an environment conducive to the protection of the fundamental rights of all citizens participating in judicial proceedings before the Constitutional Court.

Protection of Fundamental Rights

Through its decisions, the Constitutional Court sets out key interpretations of the Constitution, ensuring the protection of citizens' fundamental rights. This refurbishment work reflects the Court's ongoing commitment to excellence and constant improvement to provide fair and transparent access to constitutional justice.

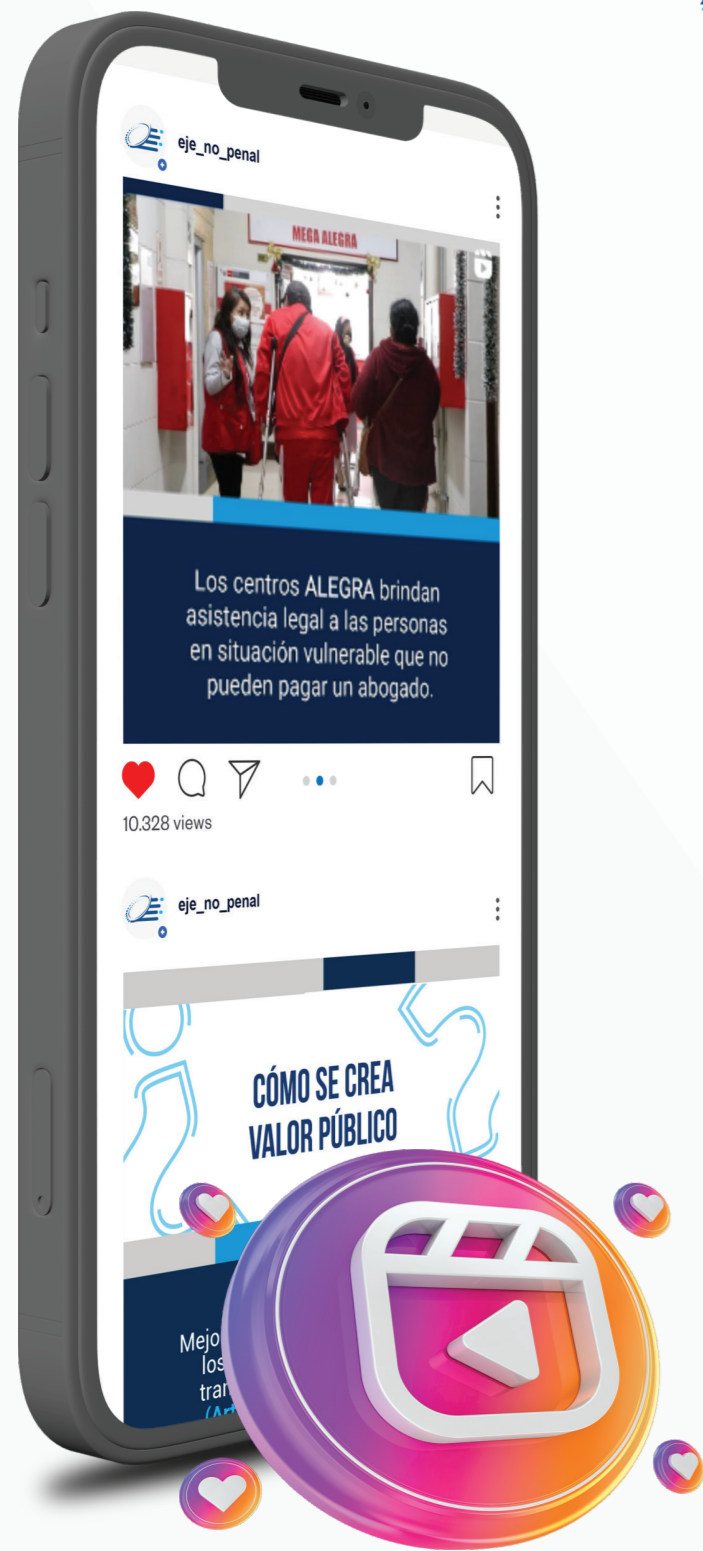

“ The Hearing Room of the Constitutional Court is the epicenter where crucial issues for the legal system and citizens' rights are debated, deliberated and decided. ”

2720 of the district of San Isidro. The total investment amounts to S/ 381,900.27 and includes a variety of improvements, including the supply and installation of electrical panel, air conditioning, emergency lighting and other essential equipment.

Benefits of Refurbishment

The main purpose of these refurbishments is to allow the Plenary Session of the Constitutional Court to resolve and hold public hearings
